OFFICIAL PICTURES OF THE 1934 WORLD'S FAIR

PHOTOGRAPHS

BY KAUFMANN & FABRY CO

★ THIS is the Official View Book of A Century of Progress International Exposition in 1934. In preparing it we have endeavored to present a pictorial reproduction of A Century of Progress, incorporating in its pages as many views as possible, so as to make a definite summary, in pictures, of Chicago's 1934 World's Fair.

Many important additions and changes have been made in the Fair of this year as compared with the Exposition of 1933. All of these we have tried to include in this Official View Book.
